(Arlington Heights, IL – June, 2007) The National Certification Board for Diabetes Educators (NCBDE) announced that Lori Moseley, Program Manager, USC Lancaster Diabetes Education Center has achieved Certified Diabetes Educator (CDE) status by successfully completing the Certification Examination for Diabetes Educators. Candidates must meet rigorous credential and professional practice experience requirements to be eligible for certification. Achieving the CDE credential demonstrates to people with diabetes and employers that the health care professional possesses distinct and specialized knowledge, thereby promoting quality of care for people with diabetes.

Lori Moseley is a Family Nurse Practitioner who graduated from the University of South Carolina with a Bachelor of Science in Nursing in 1996 and a Master's in Science in Nursing in 2004. Since 2005 she has worked as the Program Manager of the Diabetes Education Clinic, an American Diabetes Association Certified Program. The Diabetes Education Program of USC Lancaster Health Services provides education for persons with diabetes and their families which enables them to:

- Take an active role in self-management of diabetes.
- Implement preventive measures to decrease complications associated with diabetes

NCBDE was established in 1986 to develop and administer a certification

program for health care professionals who teach individuals with diabetes how to manage their disease. Through the development, maintenance, and , protection of the certification process and the CDE credential, NCBDE recognizes and advances the specialty practice of diabetes education. NCBDE supports the concept of voluntary, periodic certification for all diabetes educators who meet credential and experience eligibility requirements. For more information, visit the web site at www.ncbde.org or call the national office at 847-228-9795.
